

the purposes of paragraph (a) of this section, a 6-ounce (170-gram) tail weight is defined as a tail that weighs 5.9–6.4 ounces (167–181 grams). If the documentation accompanying an imported Caribbean spiny lobster (including but not limited to product packaging, customs entry forms, bills of lading, brokerage forms, or commercial invoices) indicates that the product does not satisfy the minimum tail-weight, the person importing such Caribbean spiny lobster has the burden to prove that such Caribbean spiny lobster actually does satisfy the minimum tail-weight requirement or that such Caribbean spiny lobster has a tail length of 6.2 inches (15.75 cm) or greater or that such Caribbean spiny lobster has or had a carapace length of 3.5 inches (8.89 cm) or greater. If the imported product itself does not satisfy the minimum tail-weight requirement, the person importing such Caribbean spiny lobster has the burden to prove that such Caribbean spiny lobster has a tail length of 6.2 inches (15.75 cm) or greater or that such Caribbean spiny lobster has or had a carapace length of 3.5 inches (8.89 cm) or greater. If the burden is satisfied such Caribbean spiny lobster will be considered to be in compliance with the minimum 6-ounce (170-gram) tail-weight requirement.

(2) See § 622.409 regarding the minimum size limit that applies to spiny lobster imported into any place subject to the jurisdiction of the United States other than Puerto Rico or the U.S. Virgin Islands.

(b) *Additional Caribbean spiny lobster import prohibitions*—(1) *Prohibition related to tail meat*. No person may import into any place subject to the jurisdiction of the United States Caribbean spiny lobster tail meat that is not in whole tail form with the exoskeleton attached.

(2) *Prohibitions related to egg-bearing spiny lobster*. No person may import into any place subject to the jurisdiction of the United States Caribbean spiny lobster with eggs attached or Caribbean spiny lobster from which eggs or pleopods (swimmerets) have been removed or stripped. Pleopods (swimmerets) are the first five pairs of abdominal appendages.

§ 622.459 Adjustment of management measures.

In accordance with the framework procedure of the Fishery Management Plan for the Spiny Lobster Fishery of Puerto Rico and the U.S. Virgin Islands, the RA may establish or modify the following items:

(a) Fishery management unit (FMU), quotas, trip limits, bag limits, size limits, closed seasons or areas, gear restrictions, fishing years, MSY, OY, TAC, maximum fishing mortality threshold (MFMT), minimum stock size threshold (MSST), overfishing limit (OFL), acceptable biological catch (ABC) control rules, ACLs, AMs, ACTs, and actions to minimize the interaction of fishing gear with endangered species or marine mammals.

(b) [Reserved]

Subpart U—Corals and Reef Associated Plants and Invertebrates of Puerto Rico and the U.S. Virgin Islands

§ 622.470 Permits.

See § 622.4 of this part for information regarding general permit procedures including, but not limited to fees, duration, transfer, renewal, display, sanctions and denials, and replacement.

(a) *Required permits*—(1) *Prohibited coral*. A Federal permit may be issued to take or possess Caribbean prohibited coral only as scientific research activity, exempted fishing, or exempted educational activity. See § 600.745 of this chapter for the procedures and limitations for such activities and fishing.

(2) [Reserved]

(b) *Application*. (1) The applicant for a coral permit must be the individual who will be conducting the activity that requires the permit.

(2) An applicant must provide the following:

(i) Name, address, telephone number, and other identifying information of the applicant.

(ii) Name and address of any affiliated company, institution, or organization.

(iii) Information concerning vessels, harvesting gear/methods, or fishing areas, as specified on the application form.

Fishery Conservation and Management

§ 622.491

(iv) Any other information that may be necessary for the issuance or administration of the permit.

§ 622.471 Prohibited gear and methods.

Also see § 622.9 for additional prohibited gear and methods that apply more broadly to multiple fisheries or in some cases all fisheries.

(a) *Power-assisted tools.* A power-assisted tool may not be used in the Caribbean EEZ to take a Caribbean coral reef resource.

(b) [Reserved]

§ 622.472 Prohibited species.

(a) *General.* The harvest and possession restrictions of this section apply without regard to whether the species is harvested by a vessel operating under a commercial vessel permit. The operator of a vessel that fishes in the EEZ is responsible for the limit applicable to that vessel.

(b) *Caribbean prohibited coral.* Caribbean prohibited coral may not be fished for or possessed in or from the Caribbean EEZ. The taking of Caribbean prohibited coral in the Caribbean EEZ is not considered unlawful possession provided it is returned immediately to the sea in the general area of fishing.

§ 622.473 Restrictions on sale/purchase.

(a) *Caribbean prohibited coral.* (1) No person may sell or purchase a Caribbean prohibited coral harvested in the Caribbean EEZ.

(2) A Caribbean prohibited coral that is sold in Puerto Rico or the U.S. Virgin Islands will be presumed to have been harvested in the Caribbean EEZ, unless it is accompanied by documentation showing that it was harvested elsewhere. Such documentation must contain:

(i) The information specified in subpart K of part 300 of this title for marking containers or packages of fish or wildlife that are imported, exported, or transported in interstate commerce.

(ii) The name and home port of the vessel, or the name and address of the individual, harvesting the Caribbean prohibited coral.

(iii) The port and date of landing the Caribbean prohibited coral.

(iv) A statement signed by the person selling the Caribbean prohibited coral attesting that, to the best of his or her knowledge, information, and belief, such Caribbean prohibited coral was harvested other than in the Caribbean EEZ or the waters of Puerto Rico or the U.S. Virgin Islands.

(b) [Reserved]

§ 622.474 Adjustment of management measures.

In accordance with the framework procedure of the Fishery Management Plan for Corals and Reef Associated Plants and Invertebrates of Puerto Rico and the U.S. Virgin Islands, the RA may establish or modify the following items:

(a) Fishery management units (FMUs), quotas, trip limits, bag limits, size limits, closed seasons or areas, gear restrictions, fishing years, MSY, OY, TAC, MFMT, MSST, OFL, ABC control rules, ACLs, AMs, ACTs, and actions to minimize the interaction of fishing gear with endangered species or marine mammals.

(b) [Reserved]

Subpart V—Queen Conch Resources of Puerto Rico and the U.S. Virgin Islands

§ 622.490 Prohibited gear and methods.

Also see § 622.9 for additional prohibited gear and methods that apply more broadly to multiple fisheries or in some cases all fisheries.

(a) In the Caribbean EEZ, no person may harvest queen conch by diving while using a device that provides a continuous air supply from the surface.

(b) [Reserved]

§ 622.491 Seasonal and area closures.

(a) No person may fish for or possess on board a fishing vessel a Caribbean queen conch in or from the Caribbean EEZ, except from November 1 through May 31 in the area east of 64°34' W. longitude which includes Lang Bank east of St. Croix, U.S. Virgin Islands.

(b) Pursuant to the procedures and criteria established in the FMP for Queen Conch Resources in Puerto Rico and the U.S. Virgin Islands, when the ACL, as specified in § 622.12(a)(2)(i)(A), is reached or projected to be reached,
